### **Visitors Bureau Releases New Guide**

The Bedford County Visitors Bureau has announced the release of the 2018 Visitors Guide.

The annual guide is produced yearly as a tool for visitors to not only learn about the county but have the ability to navigate the area with information such as maps, things to do, driving tours, walking activities and more.

The Visitors Bureau distributes 130,000 copies of the Visitors Guide to more than 300 locations in Pennsylvania, Maryland, Washington D.C. and West Virginia. The guide is also provided through phone and online requests from potential visitors.

Executive Director Dennis Tice said the visitors guide is the single, largest expense every year but it has been a staple to the Visitors Bureau for many years.

The Bedford County Visitors Bureau will also be announcing the date for a March open house at a later time. The public is invited to attend.
